### ❓ Pre-existing conditions

A pre-existing condition is any illness, ailment or condition, the signs or symptoms of which were known, or which a medical or paramedical practitioner appointed by us considers, after examining information furnished by your doctor, and any other relevant information, were in existence at any time during the six months ending on the day on which you became insured. This is irrespective of whether you were aware of the illness, ailment or condition.

This is the minimum dollar amount set by the Australian Government for accommodation as a private patient in a shared ward or room of a public hospital.
