1.4 If it is reasonable and practicable to do so, GMHBA Limited will collect personal information about an individual only from that individual.

1.5 If GMHBA Limited collects personal information about an individual from someone else, it will take reasonable steps to ensure that the individual is or has been made aware of the matters listed in subclause 1.3 except to the extent that making the individual aware of the matters would pose a serious threat to the life or health of any individual.

2 Use and disclosure

2.1 GMHBA Limited will not use or disclose personal information about an individual for a purpose (the secondary purpose) other than the primary purpose of collection unless:

- (a) both of the following apply:
 - (i) the secondary purpose is related to the primary purpose of collection and, if the personal information is sensitive information, directly related to the primary purpose of collection;
 - (ii) the individual would reasonably expect the organisation to use or disclose the information for the secondary purpose; or
- (b) the individual has consented to the use or disclosure; or
- (c) if the information is not sensitive information and the use of the information is for the secondary purpose of direct marketing:
 - (i) it is impracticable for the organisation to seek the individual's consent before that particular use; and
 - (ii) the organisation will not charge the individual for giving effect to a request by the individual to the organisation not to receive direct marketing communications; and
 - (iii) the individual has not made a request to the organisation not to receive direct marketing communications; and
 - (iv) in each direct marketing communication with the individual, the organisation draws to the individual's attention, or prominently displays a notice, that he or she may express a wish not to receive any further direct marketing communications; and
 - (v) each written direct marketing communication by the organisation with the individual (up to and including the communication that involves the use) sets out the organisation's business address and telephone number and, if the communication with the individual is made by fax, telex or other electronic means, a number or address at which the organisation can be directly contacted electronically; or

- (d) if the information is health information and the use or disclosure is necessary for research, or the compilation or analysis of statistics, relevant to public health or public safety:
 - (i) it is impracticable for the organisation to seek the individual's consent before the use or disclosure; and
 - (ii) the use or disclosure is conducted in accordance with guidelines approved by the Commissioner under section 95A for the purposes of this subparagraph; and
 - (iii) in the case of disclosure — the organisation reasonably believes that the recipient of the health information will not disclose the health information, or personal information derived from the health information; or

- (h) the organisation reasonably believes that the use or disclosure is reasonably necessary for one or more of the following by or on behalf of an enforcement body:

2.3 Subclause 2.1 operates in relation to personal information that GMHBA Limited has collected from a related body corporate as if the organisation's primary purpose of collection of the information were the primary purpose for which the related body corporate collected the information.

2.4 Despite subclause 2.1, GMHBA Limited may disclose health information about the individual to a person who is responsible for the individual if:

- (a) the individual:
 - (i) is physically or legally incapable of giving consent to the disclosure; or

 - (i) expressed by the individual before the individual became unable to give or communicate consent; and

- 6.1 If GMHBA Limited holds personal information about an individual, it will provide the individual with access to the information on request by the individual, except to the extent that:

- 6.2 However, where providing access would reveal evaluative information generated within GMHBA Limited in connection with a commercially sensitive decision-making process, the organisation may give the individual an explanation for the commercially sensitive decision rather than direct access to the information.
- 6.3 If GMHBA Limited is not required to provide the individual with access to the information because of one or more of paragraphs 6.1(a) to (k) (inclusive), the organisation will, if reasonable, consider whether the use of mutually agreed intermediaries would allow sufficient access to meet the needs of both parties.

- (a) will not be excessive; and
 - (b) will not apply to lodging a request for access.
- 6.5 If GMHBA Limited holds personal information about an individual and the individual is able to establish that the information is not accurate, complete and up-to-date, the organisation will take reasonable steps to correct the information so that it is accurate, complete and up-to-date.

Acute Care Advisory Committee

The Acute Care Advisory committee (ACAC) was established in August 1989 following an amendment of the Health Insurance Act, which replaced separate committees in each state. The state committees had been set up in 1984 by the inclusion of Section 3B in the Health Insurance Act (1973).

Under the provisions of the National Health Act 1973, a declared level of benefit is payable by health insurance funds towards the cost of members' daily hospital fees. After 35 days, this benefit is reduced to the equivalent of that paid for a nursing home type patient. However, where it can be established that the patient is in need of acute care, the fund benefit will be maintained at the declared level beyond 35 days.

If GMHBA considers that the patient is not in need of acute care but is a nursing home type patient, to reduce the level of benefit paid, the fund must refer the certificate to the Delegate of the Secretary of the Department. The form must firstly be signed by the patient authorising release of information by the medical practitioner. The Delegate then refers them to ACAC for review and a recommendation.

There are 13 members on the Committee, 5 of whom are general practitioners, together with a specialist in palliative care, 2 paediatricians with extensive experience, 2 psychiatrists in private hospital practice, a geriatrician, a consultant physician and a public health administrator.

The Private Health Insurance Administration Council (PHIAC) collects a fee of \$150.00 towards administrative expenses for each referral.

Accessing Information Upon Request

Below are different examples of customer's requests to access information, and they have been broken down into 3 stages.

Stage One – Information, which is easily accessible

- "What is my date paid to?"
- "What is my level of cover?"
- "How much do I have left to claim on Chiropractic for the remainder of this year?"

These types of requests can be dealt with on the spot

Stage Two – Information which may not be easily accessible

Stage Two requests are regarding data, which may not be easily accessible, as it can relate to queries, which cover the last 12 months – 24 months.

It is essential for staff to establish exactly what the Customer is requesting, and ensure that the request is responded to within 14 days.

E.g. "I would like a print out of my receipt history for the last 2 years"

1. Advise customer that information will be posted out within 14 days
2. Generate information
3. Generate standard letter titled stage 2 privacy request

E.g. "I would like a summary of all claims paid in the last 2 years"

1. Advise customer that information will be posted out within 14 days
2. Request claims history
3. Generate standard letter titled stage 2 privacy request

E.g. "I would like to view all notes about my family you have recorded on your system"

1. Advise customer that information will be posted out within 14 days
2. Generate information
3. Generate standard letter titled stage 2 privacy request

These types of queries if required can be referred to immediate Supervisor/Branch Manager.

Stage Three requests will usually be “out of the ordinary”, as usually they will relate to information covering a period greater than 2 years.

All Stage Three requests will need to be in writing, and these will then need to be forwarded to the Privacy Officer – Melissa Leahy, who will ensure that the request will be responded to within 30 days of the date of the letter.

Eg. Member querying a transfer within their health insurance membership which took place 5 years ago, and therefore wants access to the Transfer Form.

Eg. Member wanting to know if they have claimed on a service rendered 4 years ago (information has since been purged off the Whics Open System)

Advise customer that request is to be in writing and addressed to GMHBA's Privacy Officer.

If customer lodges their request in writing at a branch, then the recipient of the letter will generate a standard letter of acknowledgment titled stage 3 privacy acknowledgment, advising the customer that a response will be forwarded to them within 30 days of the date of their request.

Depending on the type of request and whether or not the information is easily accessible a charge will most likely apply. These types of request will be reviewed case by case with the applicable charges as follows:

- \$20.00 initialising the request
- \$20.00 for every half hour thereafter
