

Great value hospital cover if you want more than the basics but you're looking to save by excluding some hospital procedures you're unlikely to need.

Hospital excess

A hospital excess is the amount you pay towards the cost of a hospital stay before any benefits are payable by nib. Selecting a higher excess means your premiums with nib will be lower.

You only pay an excess if you or someone (other than a dependant child under 21 years of age) on your policy goes to hospital. The excess applies once per person per calendar year and is payable directly to the hospital prior to your admission.

Excess options available on this cover:

Nil Excess

\$250

per person per calendar year

\$500

per person per calendar year

Great Value for Families

- ✓ No hospital excess for dependant children under 21 years of age
- ✓ The excess for families is capped at twice your chosen level of excess (e.g. a \$250 excess is capped at \$500 per calendar year)
- ✓ Each adult on the policy will only pay one excess per calendar year if they go to hospital, no matter how many admissions they may need

Please note: if you've recently switched hospital covers your previous level of excess may apply for up to 12 months for pre-existing conditions. Refer to the Product Disclosure Statement for more information.
