understanding your extras cover

how do my extras benefits work?

CBHS Essential Extras benefits are based on 70% of the cost the provider charges you, up to a set benefit per service, which is capped by an overall limit.

Below is an example of how the Extras benefits work, depending on the service fee the dentist charges:

- ▶ Dentist fee = \$60
- ▶ 70% of service fee = \$42, which is more than the service limit (\$36)
- ▶ Benefit payable = \$36

benefit period

Each group of services within Extras and Package covers have an overall limit on the amount you can claim. Most limits are based on per person per calendar year, unless otherwise stated in our Extras table.

Benefits which attract a 3 and 5 year period are entitled to have the benefit renewed on the same date which the service was performed respectively.

waiting periods

extras waiting periods	calendar months
Prescribed optical appliances	6 months
All other services	2 months

dental choice network

The dental Choice Network is a group of dental service providers who have committed to reducing or removing the gap for **selected preventative dental** services that you would usually pay between the dentist's charges and the CBHS benefit. By choosing to use a dentist in the network you will have no out-of-pocket expenses for these selected services.

optical choice network

By visiting an optical Choice Network provider, you receive benefits of 100% (instead of the usual 70%), of the cost for all optical **frames, lenses and contact lenses** from a selected range, up to the maximum per service and overall limits. These services may also be subject to known gaps, where you will know in advance what out-of-pocket expenses you may incur.

manage your cover online
