Descriptions

Agreement Private Hospital

An Agreement Private Hospital is a participating private or same day hospital with accommodation and theatre arrangements specifically negotiated for members of Teachers Health Fund. If you choose a hospital that does not have an agreement in place, you may incur significant out-of-pocket expenses. Over 90% of Australian hospitals and day surgeries have an agreement with Teachers Health Fund.

Access Gap Cover

Access Gap Cover is a billing scheme that aims to reduce or eliminate your out-of-pocket expenses for doctors and specialist services received in hospital.

You can search for a list of doctors and specialists who have utilised Access Gap Cover in the past [via the Access Gap Cover search](#). However, this does not guarantee that they will agree to apply this scheme to every patient. It pays to always ask.

Pre-existing conditions

A pre-existing condition is an illness, ailment or condition where the signs or symptoms existed at any time during the six months before taking out private health insurance or transferring to a higher level of cover. This rule applies to new members to private health insurance and existing members who are upgrading their level of cover.

If you are a new member to private health insurance you will have to wait 12 months before you can receive benefits for items or services related to a pre-existing condition.

If you change to a higher level of cover, you may have to wait 12 months to receive benefits, including benefits for services not previously covered.

A 12 month waiting period applies to all pre-existing conditions except pregnancy and birth related services (nine month waiting period) and psychiatric, palliative care and rehabilitation (two month waiting period).

Waiting periods

Hospital waiting periods	Calendar months
Pre-existing conditions	12 months
Psychiatric treatment, rehabilitation and palliative care	2 months
