Gold Extras

G75

This information is important, please read and retain for future reference.

Gold Extras provides a high level of cover on a wide range of services with generous benefits and annual limits.

Waiting periods

Waiting periods exist to protect members from claims made by those who join the fund or increase their level of cover because they have an ailment or illness that may require treatment.

Waiting periods will apply to:

- New memberships (previously uninsured).
- Additions to a membership (unless the addition/s has already served all waiting periods with GMHBA or another fund) except newborns, adopted and permanent foster children where the family membership has been in existence for at least 2 months.
- Existing GMHBA memberships, and transfers to GMHBA from another fund where the level of cover and/or benefit entitlement is upgraded or increased and/or where the waiting periods have not been completed.

Important note: The table opposite must be read along with the footnotes below

 Ambulance – To be fully covered for Ambulance services, we recommend that you take out an ambulance subscription in your state or territory. You can claim a refund on one ambulance subscription per membership each calendar year.

A transport benefit per trip is claimable (see opposite) however this will not cover the entire cost and therefore will result in significant out of pocket costs. Publicly funded ambulance services and State Government Ambulance transport schemes are excluded.

- Blood glucose monitor Benefits are limited to one monitor per membership every three years. A doctor's letter of recommendation must accompany each claim for benefits.
- 3. Chiropractic/Osteopathy The annual limit of \$350 per person and \$700 per family membership each calendar year includes combined benefits for chiropractic (including chiropractic, x-rays), and osteopathy. There is a limit of one chiropractic xray per person/single membership each calendar year. Benefits will be paid for one consultation per provider per day.

Important note for Dental: The benefits shown are the annual limits for each type of dental service. There are further sub limits within some of these dental services.

General Dental – There are a range of dental procedures that cannot be claimed when provided on the same day e.g. a filling on a tooth that has been removed. There are also limits on the number of dental procedures you can have e.g. periodic examinations are limited to two per calendar year.

Dental benefits for some procedures cannot be paid unless tooth identifications (ID) are supplied by the provider.

The general dental limits for dental examinations and scale and clean procedures are available per person on a calendar year basis.

For services other than Dental, benefits for one initial consultation are available each calendar year.

Preventative Dental – Benefits are based on specific item numbers. We recommend you contact GMHBA for a benefit estimate to confirm the benefit payable.

- 4. Extremity pump Benefits are limited to one extremity pump per membership every three years. A doctor's letter of recommendation must accompany each claim for benefits
- 5. Eye therapy and speech therapy The annual limit of \$500 per person each calendar year includes benefits for eye therapy and speech therapy.
- 6. Fluoride dietary supplement Benefits are only payable towards the cost of dietary fluoride supplements (tablet or liquid form) dispensed by a chemist or dentist in private practice.

- 7. Naturopathy/Homeopathy/Acupuncture Benefits will be paid for one consultation and/or treatment per provider per day. The annual limit of \$350 per person/single membership and \$700 per family membership each calendar year includes combined benefits for remedial massage, naturopathy, homeopathy and acupuncture.
- 8. Nebuliser pump Benefits are limited to one nebuliser pump per membership every three years. A doctor's letter of recommendation must accompany each claim for benefits.
- 9. Nursing Visiting/home/registered nurse (private practice) The annual limit of \$1,000 per person each calendar year includes combined benefits for home (bush) nursing and visiting/registered nurse. Visiting nurse benefits apply towards a registered nurse in private practice on recommendation from a medical practitioner.
- 10. Occupational therapy The annual limit of \$500 per person/single membership and \$1,000 per family membership each calendar year only includes benefits for occupational therapy.
- **11. Optical** Non-prescription sunglasses and repairs are excluded.
- 12. Orthopaedic appliances (GMHBA approved) Must be custom made or approved by GMHBA. A doctor's letter recommending the appliance must accompany each claim for benefits. Orthopaedic appliances attract benefits where the application of which has resulted from, and is required immediately following the injury or surgery to the injury necessitating the appliance, for purposes other than or additional to support. For an appliance to be custom made, a plaster cast or mould must be taken. Customising, heat moulding, trimming or adjusting an existing 'off the shelf' appliance does not involve this process and therefore does not constitute a custom made appliance. There are some conditions therefore we recommend you call 1300 446 422 for a benefit estimate to confirm the benefit payable. The limit of \$400 per person is available each calendar year for orthopaedic appliances.
